The rainstorm which began on Friday evening continued for almost 24 hours, and wound up with a down-pour. The total precipitation was .88 inches. There was a heavy fall of snow on the Pinal and Sierra Ancha mountains.

Do not forget that the only place where you can obtain this Christmas, French imported candies, will be at Mrs. Gill's. With fifty varieties from which to select you will have no trouble to find just the kind that will make your girl sweeter than ever.

We clip from the Lower Californian the following: "The International Company has established a branch office in Los Angeles, with Charles Scofield, formerly agent at San Diego, in charge. Mr. Scofield will organize a series of excursions for this place, leaving Los Angeles every Tuesday. A general bureau of information regarding this Peninsula will also be established in that city."

The frequent showers keep the roads in bad condition and greatly interfere with the freighting of coke and merchandise between Wilcox and Globe. Our merchants are inconvenienced by the non-arrival of holiday goods which have been on the road three or four weeks. O. E. Taylor secured a portion of his Christmas goods by sending a light vehicle to San Carlos and relieving the freighter of a part of his load. Sultan has adopted the same plan and hopes to get some goods in early in the coming week. Although there is a large amount of coke on the road, there is a probability of the supply at the smelter being exhausted, before more arrives.

A dispatch to the Citizen states that Geo. F. Parks, waiter in the Commercial Hotel, Phoenix, was stabbed and killed by a Chinese cook. Ah Lee, on Monday night last. The murderer was arrested and lodged in jail.

Globe is interested in the proposed new road from Layton, on the Gila River, to Wilcox, which it is said will shorten the distance from 25 to 30 miles, and can be made for about \$20,000. Mr. Campbell, of Safford, is endeavoring to secure the aid of Wilcox merchants and others to build the road. The military authorities at San Carlos are moving in the matter also, as the Wilcox Stockman in its last issue says: "Captain Millmore, at the time of our visit, had just completed an inspection of the proposed new road from Wilcox to San Carlos, which will shorten the distance between the latter place and Wilcox about twenty-five miles. The Captain was thoroughly impressed with the practicability and necessity of building the new road, and will make a strong report to the Government urging its immediate construction."

The beautiful snow, although capping the peaks of the Sierra Ancha and Pinal Mountains, has given the valleys of Gila County a wide berth, doubtless fearing that old soil would make it sweat. So far our winter weather is only associated with the siber brown and yellow foliage of tender trees that have been nipped by light frosts. Globe seldom feels the thralldom of winter, nor do we experience the oppressive and sultry heat of less arid climates, and, as a consequence, those who say their prayers and lead a godly life sleep tranquilly with the thermometer at fever heat.

"After Swineburne"

"Mine eyes to my eyelids cling thickly, My tongue feels a mouthful and more, My senses are sluggish and sickly, To live and to breathe is a bore. My head weighs a ton and a quarter, By pains and by pangs ever split, Which manifold washings with water Relieve not a bit."

After Swineburne these lines may be, a long way after for that matter, but what a description of the man whose bowels are constive, liver disordered, blood out of sorts. Such an individual needs Dr. Pierce's Pleasant Purgative Pellets. They are pleasant to take and powerful to cure.

Dr. Pierce's Favorite Prescription cures all those peculiar weaknesses incident to females.

Frank Hammon, who was at San Carlos, Wednesday night, witnessed the minstrel performance given by members of F. Troop, 10th cavalry, and says it was the best of the kind he has ever seen. The troop was unable to show in Globe this week as expected, but may favor us later, perhaps on the 20th inst.

ARIZONA'S PETRIFIED FORESTS.

One very important duty for the 15th legislature to perform—as is suggested by our Representative-elect J. C. Jones—is to memorialize Congress to set aside as a Government reserve that portion of Apache County comprising the famous petrified forests. These petrified woods are found covering an area of very nearly two thousand acres, in many places lying upon the surface and sometimes buried in the sand. The trees vary in size from the smallest saplings to huge trunks several feet in thickness, and many different kinds of wood are represented. In many instances the character of the bark is well preserved and the grain of the wood nearly always distinguishable. When cut and polished they present the appearance of beautiful agates in a variety of colors, and are suitable for manufacture into a variety of ornamental and useful articles.

Situated only twenty miles south-east of Holbrook and accessible by a good road, the forests are annually visited by numbers of tourists and specimen hunters, and it is said their destruction is only a question of comparatively short time, unless immediate steps are taken by the Government for their preservation.

All the prisoners taken from this county to Prescott on the charge of selling whisky to Indians, have been convicted of the offense and will have to serve terms in the Territorial prison.—Mohave Miner.

By request of a large number of people in Globe and adjoining precincts, the Thanksgiving variety performances will be repeated on next New Year's eve. The programme will be varied with new songs, dances and farces, and a new stage in the Rink, including scenery, drop curtain, etc., which will be permanent.

The result of the election for Mayor in Tucson on Monday last was somewhat of a surprise. Fred Maish, Democrat, who did not announce himself a candidate until the evening preceding the election, received a majority of 83 votes over his opponent, W. E. Stevens. Councilmen elected are A. V. Grossetta, George Lesure, Frank Miltenberg, Assessor and Collector, Geo. E. Postey, Treasurer, M. P. Freeman; Recorder, Chas. H. Meyer; Marshal, Wm. Roche.

The Arizonan publishes an account of a wonderful gold quartz discovery in the Harqua Hala Mountains, near the line of Yuma and Maricopa Counties, 60 miles from Sentinel station on the S. P. railroad, and 120 miles from Phoenix. The discovery was made by Harry Wharton, who located nine claims, Bob Stein and Mike Sullivan sharing in the find. It is alleged that the men took out nuggets to the value of \$35,000 in seven days. One ledge is said to be fourteen feet wide, and assays for its entire width \$100 per ton. The claims are five or six miles from the Centennial or Harrisburg mill and only fifty yards from where Mexicans have operated dry-washers for ten years. It was not many miles from that King Woolsey, in 1866, found thirteen piles of gold ore from which \$5,000 was realized, but owing to the Indians being bad at that time, the search for the mine was not prosecuted.
